**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims are allowable at least for the reason that the prior art does not teach or reasonably suggest the separation that is formed between a path of the twice deflected light beam by a mirror system and a path of the once deflected unwanted light flux (claim 1) or the blocking member that permitting a light beam deflected by the deflector a second time at the second incident angle to reach the object surface (claim 8) as set forth in the claimed combination.

Iizuka (US 6,400,486 B1) discloses a light blocking member disposed between the deflector and the object surface, but does not form a separation between a path of the twice deflected light beam by the mirror system and a path of the once deflected unwanted light flux (claim 1) or the blocking member that permitting a light beam deflected by the deflector a second time at the second incident angle to reach the object surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
